

South Essex Homes is the Arms Length Management Organisation for Southend on Sea Borough Council, which means that we are responsible for the management and maintenance of the Council's homes.

Our website aims to provide you with online services including reporting repairs and paying your rent, as well as up to date information about the area you live, how you can get involved and support services available.

Unfortunately we can not translate the whole of our website but we want to help you understand the services which are available to you.

We can provide an interpretation either by phone, face to face and translation services. Alternatively we may also ask family members to help translate the information. Please contact us for more information on freephone 0800 833 160 and describe to the telephonist which language you speak.
